13.08.010 Connection to Sewer System or Storm drain—Permit Required.

No person, firm or corporation shall make any sewer connection to the sanitary sewer system or to a storm drain of the City of Port Orford without making application and securing a permit therefor. (*Ord. 308 § 1, 1980*)

13.08.020 Permit Application

(A) Application for sewer connection shall be made in writing in the form prescribed by officials of the City.

(B) Application for sewer connection permits

(D) Partial Exemption From Fees.

13.08.090

must conform with provision of any ordinances and other applicable laws regulating excavation in or under streets or alleys. (*Ord. 308 § 2,6, 1980*)

13.08.030 Connection Fee and Sewer Use Charge

(A) There shall be paid to the City by the owners of the property connecting to the sewer system a connection fee and a sewer use charge which shall be established by resolution of the Common Council of the *City of Port Orford* from time to time.

(B) The connection fee shall be paid in full upon connection.

(C) Calculation of Fees; Metering.

(i) Calculation of Fees.

(a) Fees Based on Total Volume of Water Consumed.

Sewer use fees shall be calculated upon the total amount of water consumed from all sources, public and private. Total amount of water consumed shall be determined by meters upon all public and private sources furnishing water to the user.

(b) Fees for Users Not on Water System.

If a user's property is not connected to the municipal water supply system and the City Administrator determines it is unnecessary to install a wastewater meter, the volume of water discharged may be estimated by the City Administrator for the purpose of determining the sewer use fees. The estimate shall be based on the activity conducted on the premises, number of fixture producing wastewater, number of residents or persons contributing to the production of wastewater, and such other factors deemed necessary by the City Administrator to estimate the volume of water discharged.

(c) Excessive Treatment Charge.

If the City Administrator determines a user is discharging or has discharged wastewater on a sustained, periodic, or accidental basis in a volume or with characteristic which cause the City to incur additional costs above normal costs associated with treating sewage, the user shall be billed for any additional costs resulting from that user's discharge.

(i) A user may apply to the City Administrator

for a partial exemption from the sewer use fee if the user can demonstrate that the total amount of water discharged into the sewer system is materially less than the total amount of water consumed by the user due to diversion for other uses. Any user seeking a partial exemption must submit a written application for an exemption, along with proof that the total amount of water discharged into the sewer system is materially less than the total amount of water consumed by the user. As used in this section, the volume of water discharged into the sewer system is “materially less” if the average monthly amount of water discharged is less than 60 percent of the average monthly amount of water consumed. Any user granted a partial exemption shall pay a use fee for only the volume of water actually discharged into the sewer system.

(ii) As a condition of any exemption, the City may require the installation and maintenance, at the user’s sole expense, of a meter to measure the volume of water diverted to other uses. The City Administrator shall approve the type and location of the meter. At any time deemed necessary by the City Administrator, the meter shall be tested by any approved testing contractor for accuracy, at the user’s sole expense. The user shall obtain reading from the meter on a monthly basis and provide them to the City on or before a date specified by the City Administrator, the user shall be solely responsible for the expense of all meter reading services. The supplier of such meter reading services shall be approved by the City Administrator.

(E) Adjustments to User’s Fee.

(i) If a waterline serving the user’s premises is broken, resulting in a sewer use fee which is materially greater than the user’s average monthly sewer use fee, the user may apply to the City Administrator for an adjustment to the sewer use fee charged for the month during which the break occurred.

Any such application shall be made within three months of the date of repair of the break.

(ii) The user shall present evidence to the City Administrator of the break, repair of the break, and the user’s average monthly sewer use fee. Upon satisfaction that break has occurred, been repaired, and that the sewer fee was materially

(1) User fees are debts to the City. Any user

greater than the user’s average monthly sewer use fee, the City Administrator shall rebate an amount to the user equal to the difference between the sewer use fee actually charged and the average monthly sewer use fee. As used in this subsection, a sewer use fee is “materially greater” if the sewer use fee is 130 percent of the average monthly user fee.

(F) Inaccurate Fees

Any user who believes his or her sewer use fee is based on inaccurate measurements or has grounds to contest the City Administrator’s estimate of volume of wastewater discharged into the sewer system may file a written request for review of his or her sewer use fee with the City Administrator. The request for review shall state the basis for the user’s objection and shall include a statement of the user’s measurements or estimated volume of discharge and shall state the method whereby the user’s measurements or estimates were made. If the user demonstrates inaccurate measurements or estimates to the satisfaction of the City Administrator, the sewer use fee shall be adjusted upwards or downwards as the case may be and the new fees shall be charged, commencing with the following month’s billing. (*Ord. 308 § 3, 1980; Ord. 2002-03 §§ 1 - 4, 2001*)

13.08.035 Collection Procedures

(A) Collection of User Fees. All users of the municipal sewer system will be billed and user fees collected by the City. All payments shall be deposited into the municipal sewer fund.

(B) Review of Fees. Any user who believes his or her user fee is based on inaccurate measurement may file a written request for review of his or her user fees with the City Administrator. The request for review shall state the basis for the user’s objection and shall include a statement of the user’s measurement and shall state the method whereby the user’s measurements were made. If the user demonstrates inaccurate measurements, the user fee shall be adjusted upwards or downwards, as the case may be, and the new fees shall be charged commencing with the following months’ billing.

fee which is unpaid when due is a lien on and against the property connected to the sewer system

(2) Disconnection—Hearing on Contested Disconnection.

i. Service may be disconnected if the user fails to pay user fees which are delinquent for more than thirty (30) days past the due date.

ii. Prior to disconnection of service, the user, if different, shall be served with written *Notice of Intent to Discontinue Service*. If the property served by the sewer system is rental property, the notice shall be served on the tenants and the property owner, regardless of which party is the actual user.

iii. The notice shall state that the user has failed to pay user fees, that the user's account is more than thirty (30) days delinquent, and that the user's service may be disconnected if the user fails to pay all delinquent fees within fifteen (15) days from the date of service of notice. The notice will inform the user that the user may file a request for hearing within fifteen (15) days from the date of the service of notice.

iv. The request for hearing must be filed by the user with the City Administrator by the user within fifteen (15) days of service of the notice of intent to discontinue service. The request must be in writing, and shall state with particularity the basis of the user's objection to discontinuation of service. Failure to timely file a request for hearing shall be a waiver of right to hearing.

v. If no request for hearing is timely filed, the City shall serve upon the user a notice of date of disconnection of service. The notice shall state the date upon which service will be discontinued.

vi. The hearing shall be held before the City Administrator four calendar days of a timely filed request, excluding Saturdays, Sundays, and legal holidays.

vii. If the City Administrator finds no good cause why the service should not be discontinued, service shall be immediately discontinued, and no notice, unless for good and sufficient reason the City shall in writing extend the time for the completion of such connection. (*Ord. 308 § 7,*

new service allowed for the user until all delinquent charges are paid in full, along with interest at the legal rate from the date of delinquency.

viii. Appeal of the decision by the City Administrator shall be by *Writ of Review* under *ORS.34.010-34.100*. (*Ord. 99-02 § 1, 1998; Ord. 2002-09 § 1,2, 2001*)

13.08.050 Inspection

The City shall be given reasonable notice to allow inspection of a sewer connection before completion and while the connections are still uncovered. All work is to be done in accordance with the specification contained in the permit, which specifications shall require the use of the same type of sewer pipe which is used in the lateral. The manner of the connection shall be subject to the approval of the City official designated to inspect the work.

13.08.060 Connection Required

Wherever there is now or may hereafter be constructed in this city a public sewer for the purpose of carrying off sewage within the City of Port Orford, the owner or owners of the property abutting on any street or alley in which the sewer is constructed, or whose property is adjacent to or along the line of said sewer not constructed within a street or alley and is within a distance of fifty (50) feet thereof and is accessible thereto, must connect the houses or buildings on such property with such sewer, and whenever the City shall notify in writing any owner or owners of property to connect to the public sewer the building or buildings situated on said property, it shall be the duty of such owner or owners to make application, pay the fee as hereafter prescribed, and complete the sewer connection within thirty (30) days from the date of the
