In areas where a water main is not adjacent to the individual lot that is proposed to be developed, the developer will pay the cost of extending the main to the parameter of the lot. G. Lot Size. In a 10-MU zone, there shall be no minimum lot area.

H. Height of Buildings. Except as provided in Section 17.20.050 in a 10-MU zone, no building shall exceed forty-five (45) feet in height.

I. Uses Not Listed. It is recognized in the development of a comprehensive Land Development Ordinance that:

1. Not all uses of land and water can be listed, nor anticipated; or
2. A use may have been inadvertently omitted from the list of those specified as permitted or conditional in each of the various districts

designated; or

3. Ambiguity may arise concerning the appropriate classification of a particular use within the meaning and intent of this ordinance.

Therefore the phrase “plus other uses deemed to be similar and not more obnoxious or detrimental to the public health safety, and welfare” shall be unmentioned, but included in “Uses Permitted Outright” and “Conditional Uses Permitted” in this district. The classification of an outright use or a conditional use is the responsibility of the planning director. Should a conflict arise over the classification of the proposed use, an interpretation by the Planning Commission can be requested. (Ord. 2008-04, New, 2007)
