PLANNING CLEARANCE REQUIREMENTS

The Planning Department must approve most construction projects by authorizing a "Planning Clearance" prior to Curry County processing and issuing a Building Permit. Before you submit your Planning Clearance application, check with the Planning Department by calling 541-332-3681 or visit us at 555 W 20th Street in Port Orford. Our hours are Monday through Friday from 7:30 AM to 4:30 PM.

Your Planning Clearance application will include an application form, an $91.00 application fee, and three copies of a Site Plan, floor plans and elevations or three copies of the building plans that will be used to submit a building permit to the Curry County Building Department. Also required will be a completed Coos-Curry Electric Coop authorization form, Port Orford Fire Depart Authorization form, and Erosion control form, and information on how you access water to your property. Your plans must include the following:

A Site Plan that identifies:
Your project street address
Assessor map and tax lot numbers
North arrow
Names of adjacent streets
Lot dimensions and approximate square footage
Access/driveway locations
Existing structural development (house, shed, accessory structures) with dimensions and distances to property lines and other development.

Proposed new structures or additions as a part of this application.
Existing utility locations (electric, water, sewer, storm drain, etc.)
Any known easements
Existing fences and / or retaining walls
Any other development or natural features such as septic drain fields, wells, tanks, springs, creeks, river, ocean shore etc.
Slope of the property and general drainage direction (is the property level or sloped)
Address of adjacent parcels (if known)

A Floor plan that identifies each room of the structure, including locations of closets, wet bars, windows. Elevations of the building, including front, rear and side views. Doors and windows are to be shown on each elevation.

NOTE: If your project is a single family home or commercial structure, after you receive your Planning Clearance, the Curry County Building Department will require preparation of the plans by a licensed engineer or architect. You may use these plans when submitting your planning clearance application, but the plans must include all the information noted above.

If you have questions when preparing your Planning Clearance application, notify Port Orford Planner, Patty Clark, at 541-332-3681.
DEVELOPMENT APPLICATION AND REVIEW PROCESS

1. **APPLICANT SUBMITS APPLICATION.**
   Applicant submits completed planning clearance application, erosion control application and if required, an erosion control plan, plot plan, application fee and any other required information.

2. **PORT ORFORD PLANNER REVIEWS APPLICATION AT THE COUNTER AND CHECKS TO SEE IF ALL REQUIRED INFORMATION IS SUBMITTED.**
   If all required information is submitted, the application and all required materials are date stamped received.

3. **PORT ORFORD PLANNER REVIEWS THE APPLICATION & GOES THROUGH THE APPLICATION CHECKLIST IDENTIFYING COMPLIANCE OR NON COMPLIANCE.**
   If the application material shows non-compliance, the applicant is notified of deficiencies in the application. If the Plot plan indicates information that is non-compliant, the applicant will be required to re-draw the plans to show compliance prior to the Planning Clearance approval.

4. **UPON PLANNING CLEARANCE APPROVAL – PORT ORFORD PLANNER WILL:**
   Date stamp approval of each page of the Planning Clearance and project plans.
   Scan and email a copy of the Planning Clearance and all related conditions to the Curry County Building Department.
   Retain a copy of the Planning Clearance and project plans for the Port Orford Planning Department.
   Give two copies of the Planning Clearance and two copies of the plans to the applicant.

5. **UPON PLANNING CLEARANCE APPROVAL – APPLICANT WILL:**
   Submit the Planning Clearance to the Curry County Building Department.
CURRY COUNTY DEPARTMENT OF COMMUNITY DEVELOPMENT

PLANNING CLEARANCE APPLICATION REQUIREMENTS

The Planning Department must approve most construction projects prior to issuance of any Building, Sanitation, or Erosion permits. Before submitting your applications, please check with the planning department at 541-247-3284 for zoning/land-uses.

1. PLOT PLAN – Please draw the plot plan to a suitable scale on an 8½ by 11 sheet of paper. Include the items listed below:

   Existing and proposed structures and driveways

   Measured distance between structures and property lines

   Property lines and all easements

   Existing & proposed wells, springs, streams and rivers

   Existing and proposed septic systems – include tank, drain-field and repair areas

   Any distinctive topographic features including existing or proposed cuts & fill

   Existing and proposed adjacent roads and highways

Note: Failure to provide an accurate plot plan may result in a delay of your proposed project.

2. Mandatory Erosion Control Application:

The mandatory erosion control application form is required and must be completed, signed and dated, even if all answers are no.

If you have any questions when filling out the planning clearance form, please call 541.247.3304.
List of Requirements for Plan Documents

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>2 Complete Sets of Legible Plans.</strong></td>
<td>Must be drawn to scale, showing conformance to the applicable local and state building codes. Lateral design details and connections must be incorporated into the plans or on a separate full size sheet attached to the plans with cross-references between plan location and details. Plan review cannot be completed if copyright violations are evident.</td>
</tr>
<tr>
<td><strong>Site/Plot Plan</strong></td>
<td>The plan must show: lot and building setback dimensions; property corner elevations (if there is more than 4’ elevation differential, the site plan must show contour lines at 2’ intervals for a distance away from the building necessary to show compliance with OTFDC Sec. 401); location of easements and driveway, footprint of structure (including decks), location of wells/septic systems, utility locations, any known fill sites or landslide hazard areas, North direction indicator, lot area, impervious area, existing structures on site, and surface drainage.</td>
</tr>
<tr>
<td><strong>Foundation Plan and Cross Section.</strong></td>
<td>Show footing and foundation dimensions, anchor bolts, any hold-downs and reinforcing steel, construction details, foundation vent size and location, soil type, and ground-floor elevation. Also show location of each storm drain, sanitary sewer, and water service connection.</td>
</tr>
<tr>
<td><strong>Floor Plans.</strong></td>
<td>Show for each floor, including basements, all dimensions, room identification, door and window sizes and locations, stairs, location of smoke detectors, water heater, HVAC equipment, ventilation fans, plumbing fixtures, balconies and decks 30” above grade, etc.</td>
</tr>
<tr>
<td><strong>Cross Section(s) and Details.</strong></td>
<td>Show all framing member sizes and spacing such as floor beams, headers, joists, sub-floor, wall construction, and roof construction. More than one cross section may be required to clearly portray construction. Show details of all wall and roof sheathing, roofing, roof slope, ceiling height, siding material, footings and foundations, stairs, insulation, fireplace construction, thermal insulation, etc.</td>
</tr>
<tr>
<td><strong>Elevation Views.</strong></td>
<td>Provide elevations for new construction; minimum of two elevations for additions and remodels. Exterior elevations must reflect the actual grade if the change in grade is greater than 4’ at building envelope. Full size sheet addenda showing foundation elevations with cross-references are acceptable.</td>
</tr>
<tr>
<td><strong>Wall Bracing (Prescriptive Path) and/or Lateral Analysis Plans.</strong></td>
<td>Building plans must show construction details and locations of exterior and interior lateral brace panels; for non-prescriptive path analysis provide specifications and calculations to engineering standards.</td>
</tr>
<tr>
<td><strong>Floor/Roof Framing Plans.</strong></td>
<td>Required for all floor/roof assemblies indicating member sizing, spacing, bearing locations, nailing and connection details. Also show purlin/strut locations. In addition, show location of attic ventilation.</td>
</tr>
<tr>
<td><strong>Beam Calculations.</strong></td>
<td>Provide two sets of calculations using current code design values for all beams and multiple joists exceeding prescriptive code requirements, and/or any beam/joist carrying a non-uniform load.</td>
</tr>
<tr>
<td><strong>Roof Truss and Manufactured Floor Member Details.</strong></td>
<td>Show, if applicable, manufactured truss and floor joist layout. Truss calculations must be turned in before building permits are issued.</td>
</tr>
<tr>
<td><strong>Electrical Plans.</strong></td>
<td>Required when house is over 10,000 sq. ft. and/or panel is more than 400 Amps. This consists of load calculations and line drawing of service.</td>
</tr>
<tr>
<td><strong>Paved Driveway, Sidewalk, and Culvert.</strong></td>
<td>If applicable, include location, width, and other specifications as required. Collector or arterial street access requires a turn-around driveway.</td>
</tr>
<tr>
<td><strong>Flood-Plain Information.</strong></td>
<td></td>
</tr>
<tr>
<td>-----------------------------</td>
<td></td>
</tr>
<tr>
<td>Buildings shall not be constructed within the floodway of 100-year flood zones. Structures may be constructed within the 100-year flood plain if the finished floor and all electrical and mechanical systems are not less than one (1) foot above the base flood elevation. For flood plain map information, please check with the Planning Department.</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>Energy Code Compliance.</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Identify the prescriptive path or provide calculations.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>Engineer's Calculations.</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>When required or provided, (i.e., foundation, sheer wall, roof truss, retaining walls exceeding 4', etc.) shall be stamped by and engineer or architect licensed in Oregon and shall be shown to be applicable to the project under review by cross-reference to the applicable plan location.</td>
</tr>

Off Street Parking:
- # of 9' x 18' parking spaces required
- No requirement

Structure Height:
- 35' maximum
- 45' maximum
- No requirement

35 feet OR 75 feet of any streams, rivers, or lakes per county Riparian Buffer Overlay Zone requirements

Lot Origin and Previous Land Use Action:
- Pre-existing
- Land use approved

Previous Land Use Actions:

** No REMOVAL OR DISTURBANCE of Riparian Vegetation within:

- 50 feet OR 75 feet

Fire Break:
- A firebreak of feet must be maintained around all proposed structures
- No requirement
EPSC SITE PLAN REQUIREMENTS

- All property lines and adjacent roadways
- Location of all existing and proposed buildings
- Location of proposed or existing on-site septic areas
- Location of all natural and artificial water features (rivers, streams, drainage, wetlands, etc)
- Location of access road or driveway
- Location and area of site disturbance associated with your project
- Direction of slopes on site; sectors within the area of land disturbance shall be labeled in ranges:
  
  - Less than 15% slope
  - 15% to 20% slope
  - 20% or greater slope (SEE EXAMPLE BELOW FOR ASSISTANCE)

- Existing (pre-development) drainage pattern
- Location of proposed erosion control measures:
  - Access points: (construction entrance, existing paved driveway or access protected with alternative measures such as wood chips, plywood, etc)
  - Perimeter containment measures: (sediment fence, compost filter berm, existing structures, etc)
  - Inlet protection if located in an area with storm drainage system
  - Riparian protection

- Stockpile or staging areas of disturbed material
- North arrow
- Scale (1" = X') of site plan—please use even scale numbers such as: 10', 20' 50' or 100' use engineering scale NOT architectural

FAILURE TO PROVIDE THE REQUESTED INFORMATION WITH YOUR PLANNING CLEARANCE APPLICATION WILL DELAY THE REVIEW OF YOUR APPLICATION.

Visual Examples of Slope

Numbers are approximate

5% - 20:1 - 3°

15% - 7:1 - 8°

30% - 3.3:1 - 17°

50% - 2:1 - 27°

If you have questions regarding completing this form correctly, please contact the Port Orford Planning Department at 541-247-3304.

1. **WILL 800 SQUARE FEET OR MORE OF SOIL SURFACE BE DISTURBED?**  YES [ ]  NO [ ]

2. **WILL 2,000 SQUARE FEET OF IMPERVIOUS SURFACE BE CREATED?**  YES [ ]  NO [ ]
   
   *(IMPERVIOUS MEANS WATER CAN'T GET THROUGH IT TO THE GROUND—LIKE PAVEMENT, CONCRETE, ROOFS OR BUILDINGS—WATER THEN SHEETS OFF OF THESE SURFACES)*

3. **WILL IMPERVIOUS SURFACES COVER MORE THAN 25% OF THE LOT AREA?**  YES [ ]  NO [ ]
   
   WHICH IS LESS: THE 2,000 SQ FT OR THE 25% COVERAGE?:  CIRCLE ONE

   IF YOU ANSWERED YES TO ANY OF THE 3 QUESTIONS ABOVE YOU MUST SUBMIT A EPSC PLAN SEE BELOW:

### Please Submit the Following Items for EPSC Plan Review:

1. **Detailed Site Plan-Required Elements on the Back of This Form**

2. **Best Management Practices (BMP's) to Be Utilized to Prevent Erosion—Such as Straw Bales, Silt Fences, Seeding/Sodding, Graveling Exposed Areas Etc**

3. **Strategy to Minimize The Removal of Vegetation Cover, Particularly Tree Cover**

   ON SLOPES GREATER THAN 15% OR WITHIN AREAS OF GEOLOGIC HAZARD YOUR PLAN MUST BE PREPARED BY A LICENSED GEOLOGIST

### Applicant Certification:

I hereby affirm, under penalty for perjury, that I am the owner or authorized representative of the owner and have full authority and responsibility to execute this erosion control application. I agree to abide by the requirements of the approved erosion control plan and/or the erosion control ordinances to the best of my ability. I am the party responsible for erecting and maintaining the erosion control best management practices (BMP) on this site until such time as the final occupancy permit is obtained or until a follow up permit is issued to another party. I understand that representatives of Curry County may enter the site to inspect the BMP's installed and that because of the uncertainty of construction practice, weather, topography and/or other conditions they may require additional practices beyond those shown on the approved plan to be installed.

SITE PLAN WORKSHEET
Please prepare a complete site plan. An incomplete site plan will delay review of your project.
BAD SITE PLAN
MINIMUM SITE PLAN REQUIREMENTS

- Property owner(s) name(s)
- Exterior property lines
- Existing structures
- Driveways or accessways
- Streets, roads, highways adjacent to property
- North arrow
- Existing easements and their purpose
- Proposed structures
- Septic system and drainfields
- Assessor Map and tax lot number
- Shorelines, water features, streams, rivers, drainages
- Property setback lines (check with planning if you are unsure)
- Well or other domestic water source
- Physical address if one has been assigned

EROSION CONTROL NOTES:

Gravel construction entrance & orange fencing will be placed as part of site activity.

Slopes over 50' in length with disturbed soil areas at 30' or greater depth will be covered with plastic sheeting or 2" layers of beach.

Exposed soil will be seeded and later transplanted.

### CITY PLANNING CLEARANCE:
Planning clearance is granted for the uses and accessory uses specified on the ________________, 2021.

Planning Clearance application form submitted by ______________________ for the property located at ______________________. Authorization of said uses and accessory uses are subject to the requirements referenced on the City of Port Orford Development Standards noted on the Port Orford Planning Clearance chart above and water and sewer are available for this property. Additional requirements for compliance with the Port Orford Zoning Ordinance are / are not attached. An Erosion Control plan for the property was / was not required. The Erosion Control Plan is / is not attached. If an Erosion Control Plan is required, all requirements of the Plan shall be met.

This Planning Clearance is valid until ________________, 20__.  

This Planning Clearance does not constitute a permit to construct any structure. You must secure a Building Permit from the Curry County Building Department prior to construction. The Building Department will require a copy of this Planning Clearance and two sets of Plans stamped by the City of Port Orford noting that the plans have received a Planning Clearance.

DECLARATION OF VALUE

The value of a building project is the total actual construction cost for all classes of work. An accurate estimate of value must include all costs for architectural, structural, electrical, plumbing, heating, and ventilation devices and equipment, and the contractor’s profit – even if he or she has a financial interest in the project.

I hereby certify the estimated value of the construction project described herein to have been prepared consistent with the above description, and declare it to be

$__________________.

I understand that the Building Department is not bound by this estimate for establishing permit fees.

Updated August 2, 2017
APPENDIX D

FIRE APPARATUS ACCESS ROADS

The provisions contained in this appendix are adopted by the State of Oregon.

SECTION D101
GENERAL

D101.1 Scope. Fire apparatus access roads shall be in accordance with this appendix and all other applicable requirements of the International Fire Code. The fire code official may be guided by the Oregon Department of Land and Conservation and Development's Neighborhood Street Design Guidelines, June 2001.

SECTION D102
REQUIRED ACCESS

D102.1 Access and loading. Facilities, buildings or portions of buildings hereafter constructed shall be accessible to fire department apparatus by way of an approved fire apparatus access road with an asphalt, concrete or other approved driving surface capable of supporting the imposed load of fire apparatus weighing at least 60,000 pounds (27,240 kg).

Exception: The minimum weight specified in Section D102.1 may be increased by the fire code official based upon the actual weight of fire apparatus vehicles serving the jurisdiction that provides structural fire protection services to the location, including fire apparatus vehicles that respond under automatic and mutual aid agreements.

D102.2 Access in wildland-urban interface areas. For egress and access concerns in wildland-urban interface locations, the fire code official may be guided by the International Wildland-Urban Interface Code.

SECTION D103
MINIMUM SPECIFICATIONS

D103.1 Access road width with a hydrant. Where a fire hydrant is located on a fire apparatus access road, the minimum road width shall be 26 feet (7925 mm), exclusive of shoulders (see Figure D103.1).

Exception: The fire code official is authorized to modify the provisions of Section D103.1 when:

1. In accordance with Oregon Administrative Rule (OAR) 918-480-0100, all buildings are completely protected with an approved automatic fire sprinkler system;
2. Provisions are made for the emergency use of sidewalks by such means as rolled or mountable curbs capable of supporting the fire department's apparatus;
3. Streets or roadways are identified for one-way circulating flow of traffic or pollutants are provided every 150 feet (45,720 mm) on streets or roadways identified for two-way traffic or;
4. A grid system for traffic flow is provided and streets or roadways in the grid do not exceed 300 feet (91,440 mm) in length but are accessible at each end from approved access roadways or streets.

D103.2 Grade. Fire apparatus access roads shall not exceed 10 percent in grade.

Exception: Grades steeper than 10 percent as approved by the fire chief.

For SI: 1 foot = 304.8 mm.

FIGURE D103.1
DEAD-END FIRE APPARATUS ACCESS ROAD TURNAROUND
D103.3 Turning radius. The minimum turning radius shall be determined by the fire code official.

D103.3.1 Drainage. When subject to runoff damage, the fire code official is authorized to require approved drainage.

D103.4 Dead ends. Dead-end fire apparatus access roads in excess of 150 feet (45,720 mm) shall be provided with width and turnaround provisions in accordance with Table D103.4.

<table>
<thead>

</tr>
<tr>
<td>Over 750</td>
<td>Special approval required</td>
<td></td>
</tr>
</tbody>
</table>

For SI: 1 foot = 304.8 mm.

D103.5 Fire apparatus access road gates. Gates securing the fire apparatus access roads shall comply with all of the following criteria:

1. The minimum gate width shall be 20 feet (6096 mm).
2. Gates shall be of the swinging or sliding type.
3. Construction of gates shall be of materials that allow manual operation by one person.
4. Gate components shall be maintained in an operative condition at all times and replaced or repaired when defective.
5. Electric gates shall be equipped with a means of opening the gate by fire department personnel for emergency access. Emergency opening devices shall be approved by the fire code official.
6. Manual opening gates shall not be locked with a padlock or chain and padlock unless they are capable of being opened by means of forcible entry tools or when a key box containing the key(s) to the lock is installed at the gate location.
7. Locking device specifications shall be submitted for approval by the fire code official.
8. Electric gate operators, where provided, shall be listed in accordance with UL 325.
9. Gates intended for automatic operation shall be designed, constructed and installed to comply with the requirements of ASTM 2200.

D103.6 Signs. Where required by the fire code official, fire apparatus access roads shall be marked with permanent NO PARKING—FIRE LANE signs complying with Figure D103.6. Signs shall have a minimum dimension of 12 inches (305 mm) wide by 18 inches (457 mm) high and have red letters on a white reflective background. Signs shall be posted on one or both sides of the fire apparatus road as required by Section D103.6.1 or D103.6.2.

D103.6.1 Roads 20 to 26 feet in width. Fire lane signs as specified in Section D103.6 shall be posted on both sides of fire apparatus access roads that are 20 to 26 feet wide (6096 to 7925 mm).

D103.6.2 Roads more than 26 feet in width. Fire lane signs as specified in Section D103.6 shall be posted on one or both sides of fire apparatus access roads more than 26 feet wide (7925 mm) and less than 32 feet wide (9754 mm).

SECTION D104
COMMERCIAL AND INDUSTRIAL DEVELOPMENTS

D104.1 Buildings exceeding three stories or 30 feet in height. Buildings or facilities exceeding 30 feet (9144 mm) or three stories in height shall have at least two means of fire apparatus access for each structure.

D104.2 Buildings exceeding 62,000 square feet in area. Buildings or facilities having a gross building area of more than 62,000 square feet (5760 m²) shall be provided with two separate and approved fire apparatus access roads.

Exception: Projects having a gross building area of up to 124,000 square feet (11,320 m²) that have a single approved fire apparatus access road when all buildings are equipped throughout with approved automatic sprinkler systems.

D104.3 Remoteness. Where two fire apparatus access roads are required, they shall be placed a distance apart equal to not less than one half of the length of the maximum overall diagonal dimension of the lot or area to be served, measured in a straight line between accesses.

SECTION D105
AERIAL FIRE APPARATUS ACCESS ROADS

D105.1 Where required. Where the vertical distance between the grade plane and the highest roof surface exceeds 30 feet (9144 mm), approved aerial fire apparatus access roads shall be provided. For purposes of this section, the highest roof surface shall be determined by measurement to the eave of a pitched roof, the intersection of the roof to the exterior wall, or the top of parapet walls, whichever is greater.
D105.2 Width. Aerial fire apparatus access roads shall have a minimum unobstructed width of 26 feet (7925 mm), exclusive of shoulders, in the immediate vicinity of the building or portion thereof.

D105.3 Proximity to building. At least one of the required access routes meeting this condition shall be located within a minimum of 15 feet (4572 mm) and a maximum of 30 feet (9144 mm) from the building, and shall be positioned parallel to one entire side of the building. The side of the building on which the aerial fire apparatus access road is positioned shall be approved for the fire code official.

D105.4 Obstructions. Overhead utility and power lines shall not be located over the aerial fire apparatus access road or between the aerial fire apparatus road and the building. Other obstructions shall be permitted to be placed with the approval of the fire code official.

SECTION D106
MULTIPLE-FAMILY RESIDENTIAL DEVELOPMENTS

D106.1 Projects having more than 100 dwelling units. Multiple-family residential projects having more than 100 dwelling units shall be equipped throughout with two separate and approved fire apparatus access roads.

Exception: Projects having up to 200 dwelling units may have a single approved fire apparatus access road when all buildings, including nonresidential occupancies, are equipped throughout with approved automatic sprinkler systems installed in accordance with Section 903.3.1.1 or 903.3.1.2.

D106.2 Projects having more than 200 dwelling units. Multiple-family residential projects having more than 200 dwelling units shall be provided with two separate and approved fire apparatus access roads regardless of whether they are equipped with an approved automatic sprinkler system.

SECTION D107
ONE- OR TWO-FAMILY RESIDENTIAL DEVELOPMENTS

D107.1 One- or two-family dwelling residential developments. Developments of one- or two-family dwellings where the number of dwelling units exceeds 30 shall be provided with two separate and approved fire apparatus access roads, and shall meet the requirements of Section D104.3.

Exceptions:

1. Where there are more than 30 dwelling units on a single public or private fire apparatus access road and all dwelling units are equipped throughout with an approved automatic sprinkler system in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3 of the International Fire Code, access from two directions shall not be required.

2. The number of dwelling units on a single fire apparatus access road shall not be increased unless fire apparatus access roads will connect with future development as determined by the fire code official.
